Generate Sine

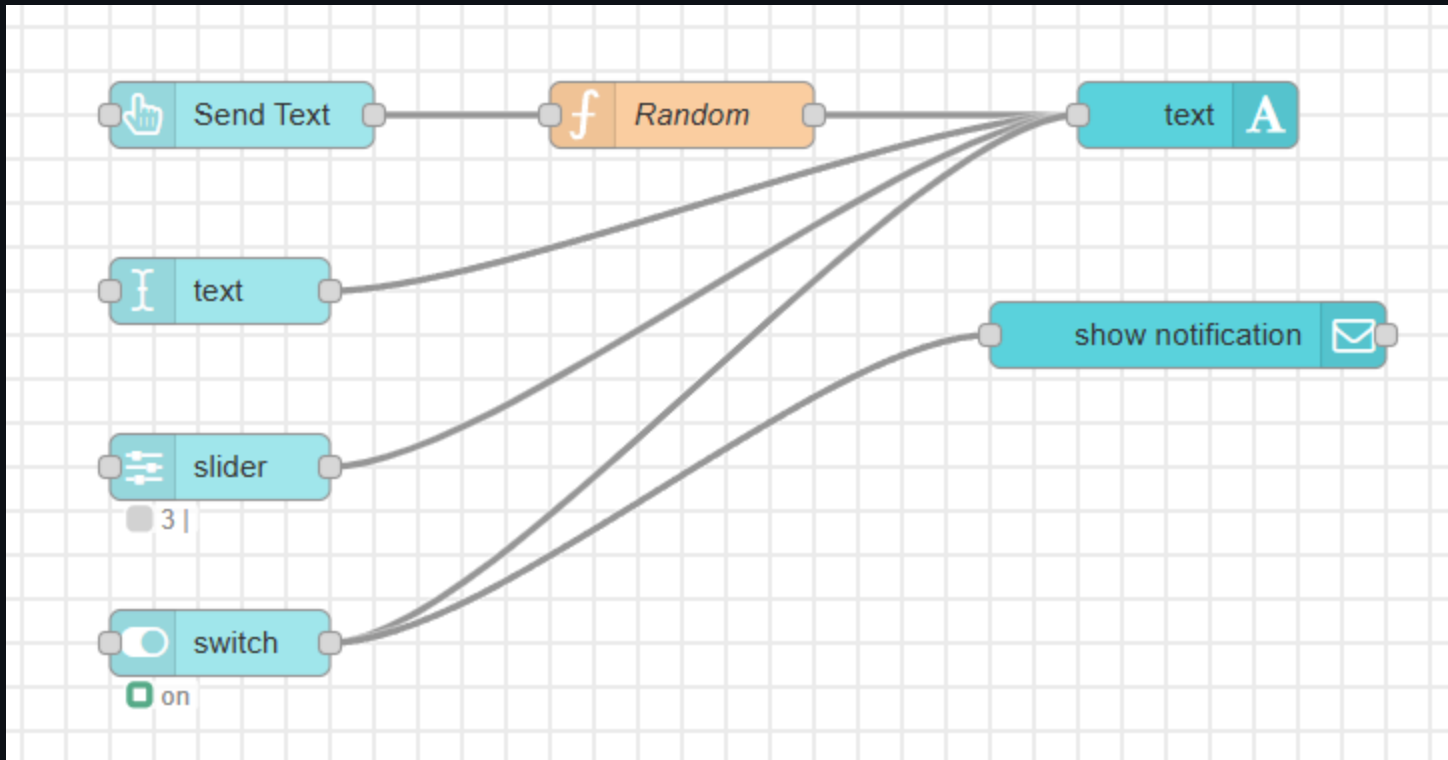

```
const period = 10; // Period in seconds
const timestamp = new Date().getTime();
const tSeconds = timestamp / 1000;
const omega = (2 * Math.PI) / period; // angular frequency
const value = (Math.sin(tSeconds * omega) + 1) / 2;
msg.payload = Math.round(value * 100) / 100; // 2 decimal places
return msg;
```

Generate Tabular Data

```
const rows = [];  
  
for (let i = 1; i <= 5; i++) {  
  rows.push({  
    ID: i,  
    Name: "Item " + i,  
    Value: msg.payload,  
  });  
}  
  
msg.payload = rows;  
return msg;
```

Random

```
msg.payload = Math.random();  
return msg;
```
